Getting Started With AWS

Setting up my AWS account took around 15 to 20 minutes AWS asks for your credit card details only for account verification, fraud prevention, and to ensure a smooth transition to paid usage if the free tier limits are exceeded.

The first projects I'm working on are those from beginner level. I'll do the first project on Building the chatbot with Amazon. LEX. I'll make time for doing projects by level from beginner to expert (and plan to redo them +pro version)

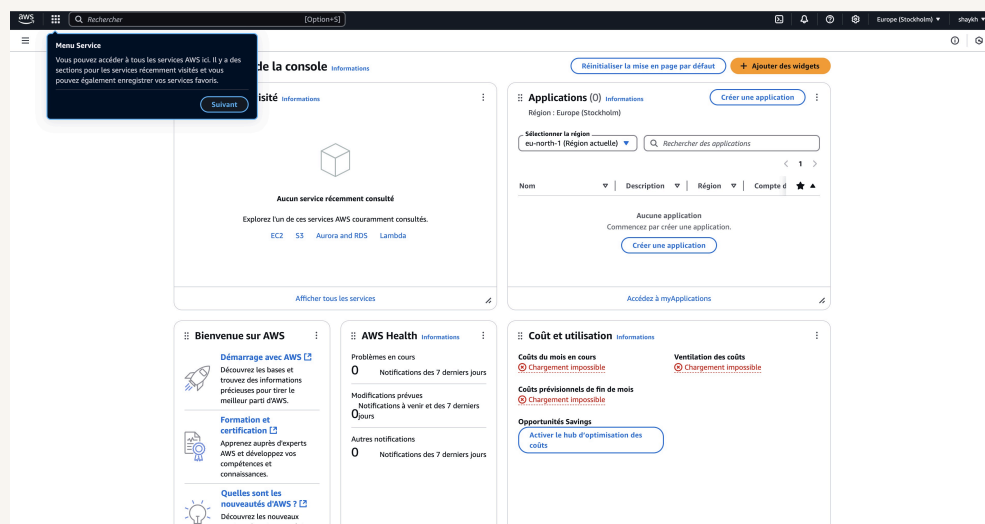

AWS Free Tier

When you sign up to AWS, you automatically get access to 12 months free of normally paid services. While there is always free tier

The AWS Free Tier includes three different types of free offers: - Free Trial - 12 months. free - always free

After my 12-month Free Tier period ends, I'll still have access to the always free I'll stop getting free access to the normally paid services. To make sure I remember this date, I will put it as reminder.
